

Take Care Code

Dear Families: As part of our system of Positive Behavioral Interventions & Supports (PBIS) we would like to recognize your child for exhibiting positive behavior at home. On the houses, please fill in your child's name and how they took care of themselves, their families and friends, their home or their community. Please cut apart and send in at least one house to school each week so that your child can receive encouragement for using positive behaviors at home. If you have any questions, please ask your child's teacher.
